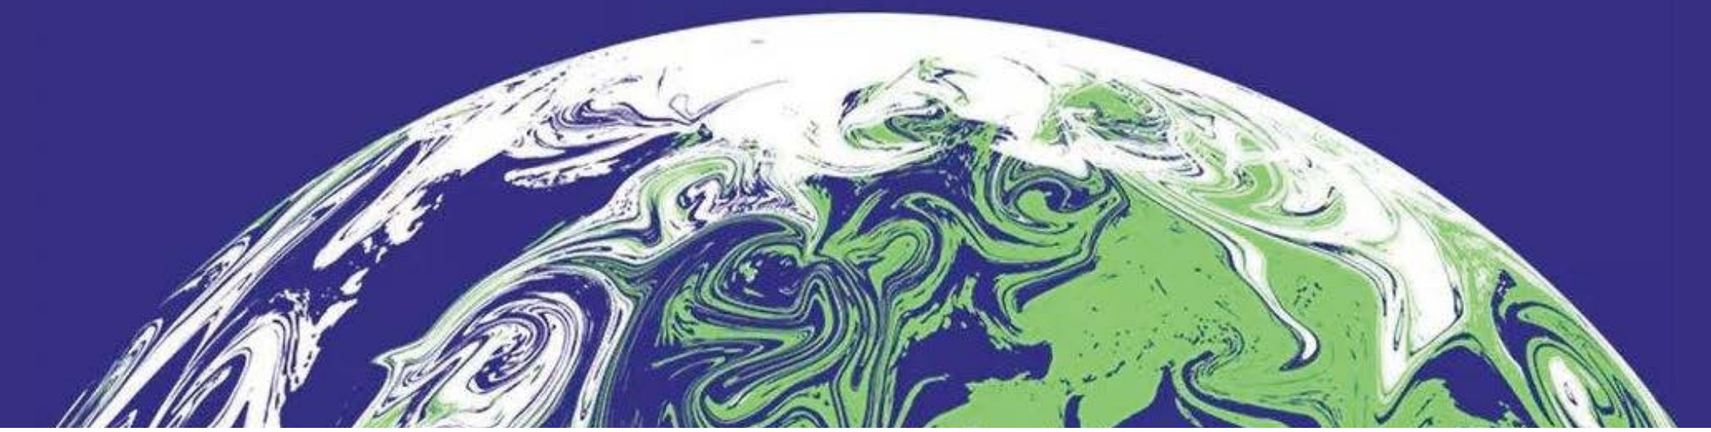
FOOD PACKAGING CREATIVITY

Compostable & Biodegradable

THE CLIMATE HAS NO BORDERS



United Nations
Framework Convention on
Climate Change

The earth is the only home for human beings to survive. We must adhere to a people-oriented policy.
Let a good ecological environment become an important support for the sustainable development of the global economy and society. achieve green growth.
China attaches great importance to coping with climate change, improving environmental products, promoting clean and diversified energy development.

VISION

Create a one-stop high-quality service platform for global food packaging.

MISSION

To provide a comprehensive range of innovative food packaging solutions to customers around the world, working to exacting manufacturing standards in terms of quality, health and safety, hygiene, customer service and the environment.

100%
Compostable & Biodegradable

COMMITTED TO GROWTH
ECO FRIENDLY LIVING

www.sunkea.com

SUNKEA
who is a global food packaging manufacturer.

FOUNDED IN 2005

Sunkea was established in 2005, 17 years on the market, making us more mature and professional. With the focuses on the quality of the products, we are pushed to continuously complete the national & international certifications like ISO, FSC, SGS, FDA, etc.

ISO9001 ISO22000 ISO14001

Sunkea began from Shanghai, one of the main gastronomy, tourism & business destinations in the world.

We started in a small apartment by our CEO Mr. Tony Hong. 2005, we created the first brand ”SUNKEA” for exportation business and second one “51cup” for domestic market. Both of them are trusted brand.

Now, let me introduce our new factory in Anhui province. It covers an area of around 30,000 square meters with 150 workers. We owned over 70 sets automatic equipment at the advanced dust-free workshops for producing paper products including salad bowl, lunch box, deli box, soup tub, paper lid, paper straw etc.

2019, we opened a branch office in Hefei, Capital city in Anhui province of China

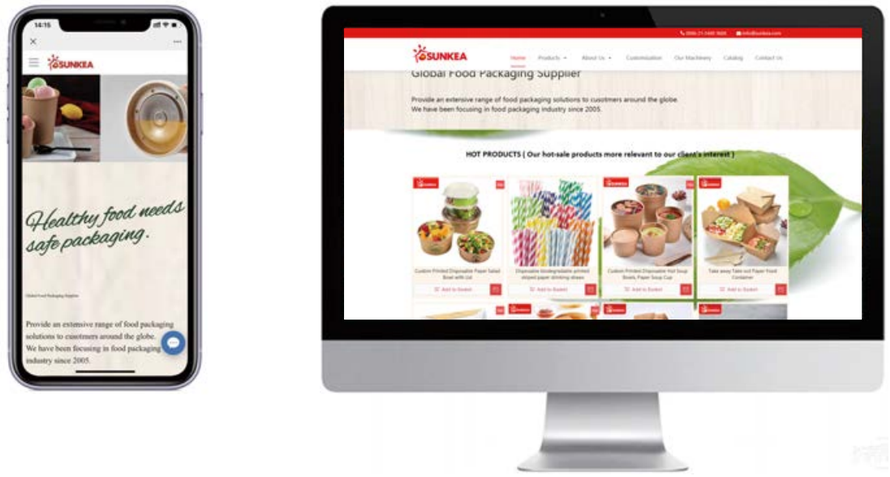
2020, our new factory is located in Anhui province. It not only can supply various food packaging to our clients, also our new Hefei sales team is started. Until now, we have more than 260 employees.

Specific and professional departments like design, sales, production..
Design team make sure the artworks, printing would follow up client's intention, also they can offer professional suggestion for you.

Sunkea's vision is " Provide one-stop quality service for global food packaging customers".
In the future, Sunkea will continue to develop production abilities and offer more environmental disposable food & beverage packaging products.

Want to know more about us. Please visit our official website:

ww.sunkea.com



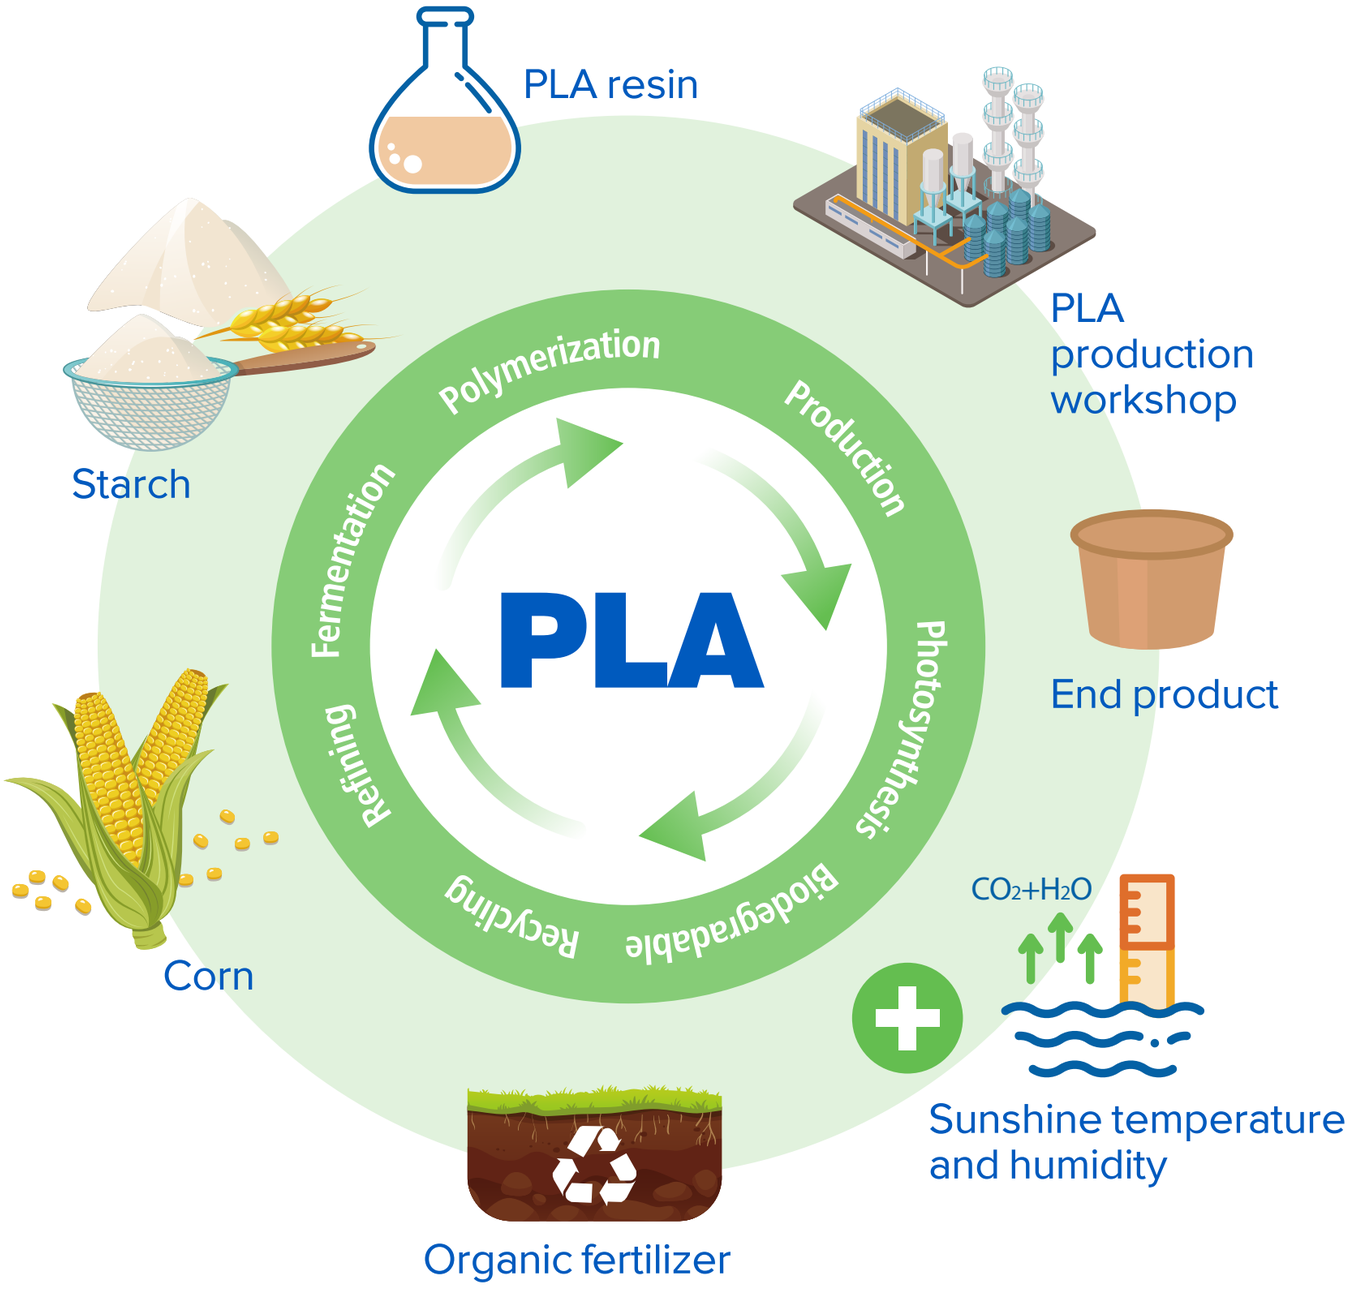
Or you could call our 24hours hot-line to get prompt responses.

Through 17 years of efforts and development,
we have exported to over 110 countries and regions,
also ship 150 containers per month.

150

PLA material: Principle of compostable

Compostable solutions as an alternative to single-use plastics, greatly protect the environment.



PLA linning is from Celluloses,
Starches (that come from corn, cassava, potatoes)
100% compostable products of plant origin are achieved.

Application of PLA in Products

100%
